

Job summary

Fraser Health is recruiting a Stroke Neurologist to provide support to [Royal Columbia Hospital \(RCH\)](#) Stroke Neurology Services, including the RCH regional hyperacute stroke services and RCH Stroke Clinic. The successful applicant would be joining an existing group of stroke neurologist that are providing inpatient stroke neurology consultations services at Royal Columbia Hospital and regional stroke call.

Royal Columbian Hospital

Royal Columbian Hospital, located in New Westminster, B.C., is a provincial referral hospital (stroke/cardiac/trauma/ neurosurgery) with 439 acute beds and is a University of British Columbia affiliated teaching hospital. The site provides a full range of medical and surgical services, including advanced diagnostics and imaging, interventional radiology, critical care, inpatient pediatrics, Level I and III obstetrics, neonatology/NICU, cardiac surgery, neurosciences, and other tertiary programs. It also offers 24/7 emergency services, with nearly 80,000 visits annually.

Royal Columbian Hospital also features a new interventional "superfloor," one of the first of its kind in Canada. By bringing together operating rooms, cardiac catheterization labs and interventional radiology suites, the floor enables faster collaboration between teams.
