

Stroke Neurologists
Trillium Health Partners, Neuro/MSK Program

Trillium Health Partners (THP) is the largest community based academic health network in Ontario, serving over two million residents in the communities of Mississauga, Peel Region and West Toronto. The hospital encompasses three main sites – Credit Valley Hospital (CVH), Mississauga Hospital (MH), and Queensway Health Centre (QHC) – offering a full range of acute care hospital services, as well as a variety of specialized programs including the Peel Regional Stroke Program.

The organization is an affiliated academic teaching center with the University of Toronto. The Division of Neurology has an excellent working relationship with Neuro-radiology and Neurosurgery, and actively participates in clinical research trials. We also support well established Stroke, Spine, Neuromuscular, Neuro-oncology, Movement Disorders, Epilepsy, and General Neurology Clinics. THP is a regional Stroke Centre and a leader in stroke care in Canada with more than 150 thrombolysis cases per year and over 2,500 visits per year to our outpatient Stroke Clinic. The regional stroke program has a 52-bed integrated stroke unit with acute and rehab beds.

We currently have positions available for full-time Stroke Neurologists to join a team of 22 neurologists. THP Neurologists primarily function on a consultation basis with limited MRP responsibilities. Practice would include participation in stroke prevention and general neurology clinics as well as the Division's daytime and evening stroke and neurology call at Mississauga Hospital site. The successful candidate will be eligible for an appointment with the Department of Medicine at the University of Toronto and is required to participate in undergraduate and graduate medical education via appointment with the Mississauga Academy of Medicine, University of Toronto.

The position represents an opportunity to join a group of dedicated healthcare professionals in a progressive organization. The successful candidate will be licensed in good standing in Ontario or eligible for a license to practice in Ontario, Canada. This may include IMGs. The position is currently available to start immediately but an appropriate candidate engaged in additional fellowship training over the next year could start in January/July 2024.

Interested candidates are requested to reply with a covering letter and curriculum vitae, by November 15, 2023 to: Lilyana.nooro@thp.ca.

Dr. Amer A. Ghavanini, MD PhD FRCPC CSCN(EMG)
Division Head of Neurology, Trillium Health Partners
Clinical Assistant Professor, University of Toronto
C/O Lilyana Nooro
