Epilepsy Neurologist

The Department of Clinical Neurosciences (DCNS) (<http://www.ucalgary.ca/dcns/>) in the Cumming School of Medicine, University of Calgary, invites applications for an Epilepsy Subspecialist to join a large clinical and academic neurology group. Calgary is a large, cosmopolitan city just one hour from the Rocky Mountains, offering both a dynamic urban life with great restaurants, shopping, and entertainment, and access to some of the world's most beautiful national parks just an hour from the city.

The DCNS represents a hub of world class research in neurosciences, outstanding clinical programs, and a diverse, dynamic, and collegial group of neurologists, neurosurgeons, psychiatrists, and neuroscientists, who collaborate daily with one another and with our close colleagues in neuroradiology and neuropathology. The cross-disciplinary structure of the department and outstanding collegiality of the group leads to opportunities for excellence and innovation in research and clinical care.

The Department of Clinical Neurosciences and Division of Neurology are committed to fostering diversity through cultivating an environment where people with a variety of backgrounds, genders, interests and talents feel welcome and included.

The Calgary Comprehensive Epilepsy Program is seeking a Neurologist to join the group. This is a clinical epilepsy position. The successful candidate will be involved in the management of adult patients with complex epilepsies in a tertiary care centre, including ICU, continuous EEG monitoring, pre-surgical evaluation, intracranial EEG planning and interpretation, ECoG, and cortical stimulation for function mapping, evoked potentials, and intraoperative monitoring. This physician will be a part of an academic call group in a role including 8 to 9 weeks per year of epilepsy call, case conferences, epilepsy clinics, clinical and epidemiological research projects, education of medical students, residents and epilepsy fellows in clinic, in the seizure monitoring units, and EEG interpretation.

We are seeking an individual with proven clinical excellence in the treatment of adult epilepsy, a record of working well within a team, and the ability to participate fully in the city-wide epilepsy call schedule. The successful candidate will be a member of the University of Calgary Medical Group and will be expected to have an appointment with the University of Calgary, Cumming School of Medicine and the Department of Clinical Neurosciences. In accordance with Canadian immigration requirements, priority will be given to Canadian citizens and permanent residents of Canada.

The successful candidate will have certification from the RCPSC in adult neurology or equivalent, certification by the CSCN in EEG interpretation and will be eligible for licensing to interpret evoked potentials in the province of Alberta. They will have completed at least one year of clinical epilepsy subspecialty training at a recognized academic epilepsy program.

The candidate must be eligible for Licensure with the College of Physicians and Surgeons of Alberta.

Must read, write and speak English.

All qualified candidates are encouraged to apply; however, Canadians and Permanent Residents will be given priority.

For more information please contact Dr. Lara Cooke, Section Chief, Division of Neurology at lcooke@ucalgary.ca

Please submit a letter of interest, your curriculum vitae and three letters of reference by December 23, 2021 to:
