

# From “OFF” to “ON”

## Managing Fluctuations in Parkinson’s Disease

➤ **Practical Tips for Neurologists**

➤ **When to Use On-Demand Therapies**

### INVITATION TO WEBINARS

Accredited Group Learning Activities Supported by Industry

**Wednesday, October 12, 2022**

7:00 - 8:30 PM EST

Anne-Louise Lafontaine, MD, MSc, FRCPC

**ENGLISH**

**Thursday, October 13, 2022**

7:00 - 8:30 PM EST

Anne-Louise Lafontaine, MD, MSc, FRCPC

**FRENCH**

#### Learning Objectives

##### **Practical Tips for Neurologists**

- Describe and recognize “OFF” episodes in patients with Parkinson’s disease, as well as their impact on patients and caregivers
- Review the benefits and limitations of available strategies for the management of “OFF” periods
- Select an appropriate treatment plan for the management of “OFF” symptoms in patients with Parkinson’s disease

##### **When to Use On-Demand Therapies**

- Recognize where on-demand treatment options fit into practice for the management of “OFF” episodes in patients with Parkinson’s disease
- Review safety and efficacy data for the two apomorphine formulations available in Canada
- Discuss patient cases and considerations regarding the use of on-demand therapies for managing “OFF” episodes
