

From “OFF” to “ON”

Managing Fluctuations in Parkinson’s Disease

 **Practical Tips for Neurologists**

 **When to Use On-Demand Therapies**

CNSF WEBINAR SERIES

Accredited Group Learning Activities Supported by Industry

Wednesday, June 1, 2022

7:00 - 8:30 PM EST

Mandar Jog, MD, FAAN

Thursday, June 2, 2022

7:00 - 8:30 PM EST

Anne-Louise Lafontaine, MD, MSc, FRCPC

Learning Objectives

Practical Tips for Neurologists

- Describe and recognize “OFF” episodes in patients with Parkinson’s disease, as well as their impact on patients and caregivers
- Review the benefits and limitations of available strategies for the management of “OFF” periods
- Select an appropriate treatment plan for the management of “OFF” symptoms in patients with Parkinson’s disease

When to Use On-Demand Therapies

- Recognize where on-demand treatment options fit into practice for the management of “OFF” episodes in patients with Parkinson’s disease
- Review safety and efficacy data for the two apomorphine formulations available in Canada
- Discuss patient cases and considerations regarding the use of on-demand therapies for managing “OFF” episodes
