

Pediatric Neurologist

Description:

Shared Health and the University of Manitoba, Section of Pediatric Neurosciences is seeking to recruit a Pediatric Neurologist for a one-year term commencing February 10, 2023, or as soon as possible thereafter. The successful candidate will have inpatient and ambulatory patient care responsibilities in a tertiary care facility and teaching at the undergraduate and postgraduate levels. A Nil appointment with the University of Manitoba will be offered on a term basis. The incumbent joins the existing Pediatric Neurology team members and share the service needs in the Section.

Qualifications:

Candidates must have senior specialty qualifications in Pediatrics in the country of current practice and must be eligible for registration with the College of Physicians and Surgeons of Manitoba.

Compensation:

Compensation is a mixed model, partly derived from Fee-for-service income.

Location:

Health Sciences Centre – 820 Sherbrook Street, Winnipeg MB R3A 1R9

The Section of Pediatric Neurology evaluates children with a wide variety of neurological abnormalities including seizure disorders (epilepsies), strokes, tumors, ataxia, headaches, neuromuscular disorders, metabolic and degenerative diseases, infectious diseases, developmental malformations and developmental delay. Opportunities for research exist and clinicians with commitment and interest in collaborative and independent research are encouraged to apply. The successful applicants will join a Section of a total of six full time academic pediatric neurologists that work closely with Pediatric Neurosurgery. The Section of Neurology also includes three pediatric neurology nurse clinicians and five EEG technologists. The EEG Laboratory provides routine EEGs, ambulatory EEGs and Video EEG Monitoring on an inpatient and outpatient basis.

The Department of Pediatrics and Child Health is comprised of more than 95 geographical full-time physicians representing all Pediatric Subspecialties, as well as with 7 full time PhD Scientists and many more primary affiliated Faculty Members. The Department of Pediatrics & Child Health and Shared Health Child Health Program collaborate closely with the Children's Hospital Research Institute of Manitoba to improve the health and care for children in the province. The Pediatric Neurology Program is highly regarded for excellence in patient care, education and research. Research and continuing education are an integral part of the program, that has a strong reputation for inter-disciplinary collaboration and patient centered care.

Shared Health and the University of Manitoba are committed to the principles of equity, diversity & inclusion and to promoting opportunities in hiring, promotion and tenure (where applicable) for systemically marginalized groups who have been excluded from full participation at the University and the larger community including Indigenous Peoples, women, racialized persons, persons with disabilities and those who identify as 2SLGBTQIA+ (Two Spirit, lesbian, gay, bisexual, trans, questioning, intersex, asexual and other diverse sexual identities). All qualified candidates are encouraged to apply; however, Canadian citizens and permanent residents will be given priority.

If you require accommodation supports during the recruitment process, please contact UM.Accommodation@umanitoba.ca or 204-474-7195. Please note this contact information is for accommodation reasons only.

An inclusive, open and diverse community is essential to excellence and fosters voices that have been ignored or discouraged. To address the Rady Faculty of Health Sciences commitment to equity, diversity and inclusion, and in recognition of the underrepresentation of members of historically and currently excluded groups, we take proactive measures including implicit bias training for all hiring panels. We strive for diversity and cultural safety throughout the hiring process (hiring panels, short-list of candidates, interviews). We encourage you to self-identify any aspect of diversity in your cover letter.

Application materials, including letters of reference, will be handled in accordance with the protection of privacy provision of *The Freedom of Information and Protection of Privacy* (Manitoba). Please note that curriculum vitae may be provided to participating members of the search process.

Contact:

Interested candidates should submit the following materials: 1) a letter of application, 2) outline professional and teaching interests; 2) an outline of research plans 3) curriculum vitae; and 4) names and contact information of three referees on or before November 30, 2022.
